18 Rue de l'Epitaphe
25000 Besançon, France

Portfolio

SKILLS

- MATLAB · Python · C · LabVIEW
- Ansys / FEA · Creo · Windchill / PLM
- Instrumentation
- Mechanical Design & CAD
- Optics · Microfabrication · Metrology
- Technical Communication · Project Management

LANGUAGES

- English (C1 - Linguaskill test)
- French (Bilingual)
- Italian (A2)
- Spanish (B2)
- Wolof (Native language)

SPORTS

- Running

INTERESTS

- Programming
- Logic games
- Thriller novels

FINAL YEAR INTERNSHIP

6 months, from Feb 2027

PROFILE

Engineering student at Supmicrotech ENSMM, specializing in the Design and Development of Connected Objects. Cross-disciplinary profile at the intersection of electronics, embedded systems, mechanical engineering and computer science, with experience in instrumentation, numerical simulation and experimentation.

EXPERIENCES

Internship - Cristal Innov Sept 2025 - Feb 2026

- Instrumentation of a hydrothermal quartz synthesis autoclave
- Numerical simulations and in-situ experimental testing
- Participated in production operations (machining, crystal cutting, infrared spectroscopy, metrology) and an 8D quality-improvement process

Private Tutoring – Elementary, Middle & High School
Student job, since Sept 2026
Homework support and personalized tutoring in Mathematics, Physics and Chemistry

ACADEMIC PROJECTS

Ultrasound Simulation (MATLAB) – Multilayer acoustic model, time-of-flight estimation using cross-correlation, noise robustness (SNR)
Homodyne Michelson Interferometry – Vibration measurement using optical methods and MATLAB signal processing
Crowd Simulation (Java) – Autonomous agents, collision and obstacle avoidance
Cleanroom – Introduction to photolithography and microfabrication
Design Optimization (Windchill/PLM) – FEA/ANSYS and Ashby's method applied to the design of pruning shears

EDUCATION

Supmicrotech ENSMM **2024-2027**
Engineering degree (Master's level)
Mechanical engineering and microtechnology
Specialization in Design and Development of Connected Objects.

Scientific preparatory classes PCSI/PC* **2022-2024**
Lycée Henri Poincaré, 54000 Nancy, France

Scientific Baccalaureate: Mathematics, Physical Sciences **2021/2022**
High Honors
Scientific excellence high school, Diourbel/Senegal
